

CLODERALDO PAMPANGA

Flutter Developer | Cross-Platform Mobile Engineer

Tacloban City, Philippines | +63 9662560528 | cloderaldo@gmail.com

[LinkedIn](#) | [Portfolio](#) | [Medium](#)

PROFESSIONAL SUMMARY

Results-driven Flutter Developer with 5+ years of experience building high-performance cross-platform mobile applications for Android and iOS. Proven expertise in Dart, BLoC/Provider state management, REST API integration, Firebase integration, and CI/CD pipelines. Experienced full-stack engineer with a strong foundation in systems analysis, clean architecture, and remote collaboration. Passionate about writing maintainable, reusable code that scales.

TECHNICAL SKILLS

| | |
|------------------------------|--|
| Mobile Development | Flutter (Android & iOS), React Native, Dart, Flutter Lifecycle, Stateful & Stateless Widgets |
| Languages | Dart, JavaScript (ES6+), Python, Java, HTML/CSS, SQL |
| State Management | BLoC, Provider, Riverpod, Redux, Context API |
| API & Integration | REST APIs, Dio, Axios, Firebase (Auth, Firestore, Cloud Messaging), Third-Party SDKs |
| Backend & Tools | Node.js, Laravel, Git, CI/CD Pipelines (GitHub Actions, Fastlane), Android Studio, VS Code |
| Testing & QA | Flutter Test, Widget Testing, Integration Testing, Performance Profiling |
| Other | Systems Analysis, Technical Documentation, Business Requirements Analysis |

PROFESSIONAL EXPERIENCE

Full Stack Developer (Flutter & Web)

Freshclinics — Remote, Australia *Dec 2022 – Jul 2025*

- Developed and maintained scalable Flutter applications for Android and iOS, delivering responsive and high-performance cross-platform mobile experiences
- Built complex UI components using Flutter's widget tree, custom painters, and animations for polished user interfaces
- Integrated RESTful APIs using Dio/Axios and managed application state with BLoC and Provider patterns for seamless, reactive data flows
- Integrated Firebase services (Authentication, Firestore, Cloud Messaging/push notifications) and third-party SDKs to extend app functionality
- Optimized app performance and stability through profiling, widget rebuilding reduction, and Flutter lifecycle best practices
- Collaborated with designers and senior engineers to translate business requirements into clean, maintainable, and reusable Flutter code
- Conducted QA testing, wrote widget and integration test scripts to ensure comprehensive front-end and back-end application quality
- Performed systems interface analysis and provided recommendations to improve usability and performance

Flutter Developer & Systems Analyst

Qonvex — Calbayog City, Philippines *Dec 2019 – Nov 2022*

- Built and deployed cross-platform mobile applications (Android & iOS) using Flutter and Dart with robust back-end API integrations
- Managed application state with BLoC and Provider, designing reactive, testable architectures following Flutter best practices

- Architected and implemented CI/CD pipeline with automated testing and deployment (Fastlane + GitHub Actions), reducing release cycle time significantly
- Identified and analyzed business requirements for mobile and web applications through comprehensive system analysis and stakeholder engagement
- Improved code readability, architecture, and maintainability by applying SOLID principles and refactoring legacy code
- Troubleshoot complex bugs, resolved performance bottlenecks (jank, memory leaks), and improved overall application reliability
- Wrote comprehensive technical documentation covering architecture decisions, API contracts, and deployment procedures

EDUCATION

Bachelor's Degree in Computer Science 2016 – 2019

Northwest Samar State University

CERTIFICATIONS & RECOGNITION

- MTA: Introduction to Programming Using Python — Microsoft Certified (2019)
- Google Developer Profile
- Published technical articles on Medium (@cloderaldo) covering Flutter, mobile, and web development topics

REFERENCE
